Administrative history / Biographical sketch

Note

Frederick Winnett (F. W.) Luney was the oldest child of Isabella and James S. Luney, born in 1892 in Middlesex, Ontario. He had three younger brothers: Oswald S., Russell H., and Willford R. In 1914, Luney graduated from the medical program at the University of Western Ontario. On May 12, 1916, he enlisted with the Canadian military in the Army Medical Services division, where he held the position of Lieutenant. Dr. Luney served as an intern at Victoria Hospital in London, Ontario, where he was appointed Senior Pathologist in 1917, a position he held until 1927. He was also appointed to the Institute of Public Health (London, Ontario) in the Division of Pathology and Bacteriology. On June 29, 1918, he married Cora E. Spettigue in London, Ontario. In 1927, Dr. Luney began work at St. Joseph's Hospital (London, Ontario) as Director of Laboratories. In 1928, he established the Clinical Pathology Laboratory, known later as the Department of Laboratory Medicine (from 1960 to 1986). Dr. Luney was Secretary of the St. Joseph's Hospital Nominating Committee from 1928 to 1930. From 1929 to 1961, he held the position of Clinical Laboratory Chief. Through experimentation on animals, Dr. Luney made great advances in blood transfusion techniques, and even pioneered a new blood transfusion apparatus, a "two-person multiple syringe" that allowed blood to flow directly from donor to patient. On March 19, 1945, Dr. Luney directed the opening of the Blood Bank Department at St. Joseph's Hospital. He placed Sr. Leonarda Kelly, R. T. in charge of the department. Between 1941 and 1942, Dr. Luney was appointed the fourth President of the Ontario Association of Pathologists, a non-profit medical society committed to representing patients and pathologists, and promoting excellence in the practice of pathology. During his tenure at St. Joseph's Hospital, Dr. Luney was a member of the First Library Committee (1931), Chief of Staff (1941-1943, 1952-1954), and a founding member of the Historical Committee (1950). He retired in 1961, after 34 years of medical service. In 1970, Dr. Luney established the Dr. F. W. Luney Fund,

donating \$5,000 for the purchase of supplies for the St. Joseph's Hospital Medical Library. In addition to his work at both Victoria and St. Joseph's, Dr. Luney established private pathology consulting services to smaller medical centres in St. Thomas (Ont.), Tillsonburg (Ont.), Chatham (Ont.), Sarnia (Ont.), and Brantford (Ont.). He was also an Associate Professor at the University of Western Ontario for 44 years. Dr. Luney died on February, 1987.

Custodial history

The records were transferred to the Medical Artifacts Collection of St. Joseph's Hospital from Dr. F. W. Luney's office. Then they were transferred to the Congregation of the Sisters of St. Joseph in Canada Archives.

Scope and content

The Dr. F. W. Luney fonds consists of 14 series (and 2 subseries) of records chronicling his scholarly beginnings as a medical student at the University of Western Ontario, his appointment as Senior Pathologist at Victoria Hospital, and the extent of his professional career as Clinical Laboratory Chief at St. Joseph's Hospital until his retirement in 1961. During his career, Dr. Luney would enlist in the Canadian Army Medical Services Division during WWI, establish a Clinical Pathology Laboratory at St. Joseph's Hospital in 1928, conduct extensive research in blood transfusion techniques, direct the opening of the Blood Bank Department and St. Joseph's Hospital in 1945, establish private consulting services for smaller hospitals in southern Ontario, and create the Dr. F. W. Luney Fund to raise funds for the Medical Library at St. Joseph's Hospital. Records of note include: well-maintained, original photographs of Dr. Luney and fellow classmates posing with a cadaver; records created to document body parts and organs donated to Luney's private "Museum"; personal notebooks outlining his medical training and professional experiences; a selection of diplomas and certificates; records of his \$5,000 donation to the Medical Library at St. Joseph's Hospital; photographs depicting the two-person multiple syringe apparatus he invented; notes from lectures and seminars that he gave on pathology and blood transfusion-related subjects; and a 60th anniversary portrait of Dr. F. W. Luney with his fellow 1914 graduates.

Notes

Title notes

- **Source of title proper:** Title is based on the contents of the fonds.

Arrangement

Most of the records within this fonds have been kept in the original filing system established by the creator.

Location of originals

The records are located at The Congregation of the Sisters of St. Joseph in Canada Archives.

Restrictions on access

Personal and confidential information may be found in many of the patient records, so these will have privacy restrictions.

Conditions governing use

Permission to study archival records does not extend to publication or display rights. The researcher must request this permission in writing from The Congregation of the Sisters of St. Joseph in Canada Archives.

Finding aids

A file and series list is available.

Accruals

No further accruals are expected.

Series: SJH-F01--S001 - St. Joseph's Hospital Records

Title: St. Joseph's Hospital Records

Reference code: SJH-F01--S001

Date: 1929-1965 (date of creation)

Scope and content:

This series consists of three folders, featuring information on correspondence, reports, syllabi, and notes. Correspondence includes: a professional letter from Sr. M. Leonarda from St. Mary's Hospital regarding Dr. Luney's appointment to Consultant Staff; a condolence letter regarding the death of Dr. Luney's brother; a letter from Sister Mary Elizabeth thanking Dr. Luney for a \$5,000 donation he made to the Medical Library at St. Joseph's Hospital; and letters to Dr. Luney from the Canadian Tumour Society Registry regarding "interesting cases". Reports and notes include: patient evaluations and post-mortem examinations; a booklet titled "Laboratory Aids for the Investigator"; a booklet featuring the official opening of St. Mary's Hospital in 1951; the by-laws and rules and regulations for the medical staff of St. Joseph's Hospital; and a 1953 syllabus from the Canadian Society of Laboratory Technologists.

Series: SJH-F01--S002 - Ontario Association of PathologistsTitle: Ontario Association of PathologistsReference code: SJH-F01--S002Date: 1939-1964 (date of creation)Scope and content:

This series contains material created in relation to the administration and event programming of the Ontario Association of Pathologists during Dr. Luney's time as a member. Included are minutes, bylaws, correspondence, constitutions, regulations and patient records. There are three photographs of tissue samples that relate to a seminar conducted by Dr. Carl V. Weller as well as event programs from The Harvey Club of London Annual banquets. Also contained are the speech notes of Dr. Luney for a Harvey Club speech he made in 1939 on syphilis.

Series: SJH-F01--S003 - Notebooks

Title: Notebooks

Reference code: SJH-F01--S003

Date: 1911-1921 (date of creation)

Scope and content:

This series consists of Dr. F. W. Luney's handwritten reference notes, composed on both bound notebooks and unbound pages. The series is divided into two subseries, covering Dr. F. W. Luney's medical training at Western as well as his residency at St. Joseph's Hospital.

Title: Medical School

Reference code: SJH-F01--S003--01

Date: 1911-1914 (date of creation)

Scope and content:

This subseries contains Dr. Luney's handwritten notes from his days as a medical student at the University of Western Ontario, from 1911 until his graduation in 1914. The notes cover a variety of lecture and examination topics, such as: biology, chemistry, botany, zoology, histology, anatomy, physiology, obstetrics, and surgical techniques. The subseries consists of 31 files, arranged in approximate chronological order.

Series: SJH-F01--S004 - Photographs

Title: Photographs

Reference code: SJH-F01--S004

Date: 1914-1964 (date of creation)

Scope and content:

This series contains photographs relating to Dr. Luney's experience as a medical practitioner beginning with his time as a medical student at the University of Western Ontario from which he graduated in 1914. Photographs at this stage depict students at work and posing with cadavers. There

is a portrait of Dr. Luney in a military uniform as well as a US war manual for laboratory methods. A significant portion of the series depicts scenes from medical school reunions, predominantly from the 50th anniversary of Dr. Luney's graduation. These photographs contain images of other doctors from Dr. Luney's graduating class and their spouses. The 50th anniversary reunion took place at the London Hunt and Country Club and some of the reunion photographs were taken in Dr. Luney's home.

Series: SJH-F01--S009 - Laboratory of Pathology - St. Joseph's Hospital

Title: Laboratory of Pathology - St. Joseph's Hospital

Reference code: SJH-F01--S009

Date: 1924-1937 (date of creation)

Scope and content:

This series consists of two folders, featuring documentation outlining Dr. Luney's private laboratory services to St. Joseph's Hospital, and correspondence and address notes involving the Tissue Committee and Ontario Medical Association. Some specific documents include: a written draft of Dr. Luney's contract with St. Joseph's Hospital for the establishment of his private laboratory; 1930 correspondence between Dr. Luney and Mr. John M. Robb (Minister of Health) from the Ontario Board of Health regarding pathology and tissue diagnosis; a request made by the Lincoln County Medical Association for Dr. Luney to prepare an address on "A Simple Citrate Method of Blood Transfusion" for an upcoming meeting; Dr. Luney's preparation notes and address for the Lincoln County Medical Association; two photographs featuring a new blood transfusion apparatus developed by Dr. Luney; and an operation record outlining a procedure conducted using Dr. Luney's blood transfusion technique and apparatus.

Series: SJH-F01--S011 - Lectures

Title: Lectures

Reference code: SJH-F01--S011

Date: 1917 (date of creation)

Scope and content:

This series contains lecture notes for second-year microbiology classes delivered by Dr. H.W. Hill in 1917. The lectures are on the topic of parasitology, and the series contains an information table of principle insect-borne diseases. The lectures are annotated in ink by Dr. Luney, and there is a page of handwritten notes on the lecture topics.

Series: SJH-F01--S012 - Museum

Title: Museum

Reference code: SJH-F01--S012

Date: 1935 - 1960 (date of creation)

Scope and content:

This series is a catalogue of specimens collected and described for a museum of human body part and internal organs. Listed are the patient and doctor names, specimen type, and administrative details for each specimen (identifying number, etc.). Each specimen also has a History, Macroscopic description, and Microscopic description. The final pages contain details of submissions from the Canadian Tumor Registry of the National Cancer Institute of Canada. Dr. F. W. Luney's own gallbladder is included in the catalogue.

Series: SJH-F01--S014 - Publications

Title: Publications

Reference code: SJH-F01--S014

Date: 1907 - 1962 (date of creation)

Scope and content:

This series contains various publications related to the study of medicine and Dr. F. W. Luney's time in medical school. Most of the publications are small, pocket-sized reference books providing practice and procedure information for a variety of ailments and medical scenarios. Also included are histories,

satirical works, a formulary, a bulletin and a printed edition of the Coroner's Act, revised in 1940. Dr. Luney's own University of Western Ontario YMCA Handbook and University of Western Ontario Medical Handbook are also included, the latter containing handwritten notes in the memorandum section. One folder contains clipped images and textual passages from A History of Medicine in Pictures by George A. Bender. There are also publications from the University of Western Ontario, including reports from the Institute of Public Health, and a booklet containing information about studies in the Faculty of Medicine, all of which mention Dr. Luney and the positions he held. Finally, there is a copy of the University of Western Ontario Medical Journal from 1934.
